AllSmartFlow

AVS AUTO VALVE SYSTEM

INCREASE PRODUCTIVITY WITH SMART VALVE CONTROL

Introducing the Vacall Auto Valve System option on AllJetVac models designed to improve operator efficiency and simplify switching water functions with the press of a button. The AVS options allows operators to switch from jetting, to washdown, or optional tank flush from the AllSmartFlow control panel. This new innovation also includes a new electric switch bank for raising or lowering the debris tank and tailgate and turning on or off the tank vibrator or sludge pump to be mounted anywhere on the truck.

- ▶ **Easy to learn, simple to operate**
- ▶ **All electric system**
- ▶ **Switch water functions from jetting, washdown, or optional tank flush and excavation with a simple press of a button**
- ▶ **No need to open/close manual water valves on the water manifold**
- ▶ **New remote mounted electrical switches to raise and lower debris tank and tailgate**
- ▶ **Compatible with front and rear AllJetVac configurations**
- ▶ **Works with belly pack remote control for operation of all functions with a better view of the working or dumping area**
